Nests found in Nepal.

Robson (1982)
part

29 May

Ibisbill 1 nest with 4 eggs at Kyanguin, on Shingde island in river. No real nest, eggs laid on flat area of fine, tiny stones amongst larger stones.

Eggs not pear shaped like expected but similar in shape to a stone curlew's egg & roughly that size. Olivey black ground coloration with dark brown smudges * spots around the upper $\frac{2}{3}$ of the egg

15 May

Ultramarine Flyc 1 Nest found on Sheopuri Ridge under bank @ 6' above ground. Moss affair, similar to spotted flyc. Small, shallow, well lined cup with 3+ young less than 5 days old.

→
amongst roots.

Thor Pati

18 May.

Impeyan Pheasant 2 ♀♀ seen with at least 4 tiny fledglings. The youngsters were chocolatey brown with a creamy supercilium and creamy patches on body. The young birds had the ability to ~~throw~~ throw themselves down steep slopes for 20 yards or so at a time, so they could keep up with the fleeing ♀♀s.

Sopte

20 May.

Orange Bared Warbler 1 nest found in Rhododendron bush @ 4-5' off ground. main construction made of moss, with large opening at front. lined with bamboo leaves which were very obvious, poking out of the entrance. feathers also used in lining. 3 well grown young with developing feathers.

Gopte
21 May

Rufous Vented Tit 1 nest found in natural split in
Rhodedendron tree. Typical tit-like construction of
moss & cobwebs etc, appeared to be empty. @ 4-5' of ground.

Gopte
22 May

Fire Tailed Myzornis 1 nest under construction.
Quite large, messy, moss ball, with small hole for
entrance in front. Nest against rock face/bank amongst
existing moss. 3-4' off ground. Both sexes were lining
the nest with flakey Rhodedendron bark.

Gopte - Gosainkund
22 May

Fire Tailed Sunbird 1 nest being constructed
amongst branches of dwarf juniper. @ 3' off ground.
Flimsy oval shaped construction of dead grasses
with hole at front towards top. ♀ was doing the work.

Bhangu village
→ Singabri
24 May

Grey Bushchat 1 nest 2' above ground amongst
vegetation on bank by path. Moss nest very similar
to Egyptian Robin - a large moss cup with large
amounts of moss spread in front of main nest.
4 Eggs very similar to Robin as well, but paler. ♀ incubating

Bhangu →
Singabri
24 May

Rufous Bellied Niltava 1 Nest with 4 very
round white eggs. Nest moss cup hidden in vegetation
on bank by path @ 5' above ground. ♀ incubating
2 Eggs hatched ~~in~~ during my presence at the nest.

Langtang
Gorge
26 May

Grey Bellied Tesia 1 Nest, very similar to wren's
placed on side of boulder @ 3-4' above ground
Several newly hatched young (hard to count) ♂ singing
nearby.

Kyangvin
28 May

Tickell's leaf warbler 1 nest being constructed in low bush close to ground. Typical Phyllozoe ball of dead grasses with entrance in front.

Hama Lodge

31 May

Verditer flyc 1 nest in gap amongst rocks on steep bank @ 10-15' above ground. Nest mainly of roots. 3+ young ? age.

Mammals list.

One Horned Rhino

15 Saurs

Jungle Cat

1 Rhosi

Yellow Throated Marten

Red Panda

2 Gorapani Ridge

Musk Deer

Sex Kyangvin (upper langtang)

Gorram

Sex langtang gorge

Himalayan Tahr

many herds on langtang 2 Ghosa

Blue sheep

6 Muktiath (Thorong la).

Heavy Belled Squirrel

1 Tigentops.

Indian fox

fair with young, Meghwal

Gangetic Dolphin

Sex Khosi

Notes on Grey Breasted finia

long slender bill

narrow white supercilium to just behind eye.

dull reddish eye.

grey brown crown and nape.

throat white

mantle brownish but no great contrast with crown

wings a little warmer

broad dusky throat. legs pink.

Tail from above

whitish tip
black subterminal mark.

Tail from below.

Tail very long.

also black + white tip show.

Tail greyer than mantle
