It is also observed in all Sikkim monasteries and Lhakhang, where Lamas and devout Buddhists offer butter lamps, incense and Khadas (scarves) to the deities therein.

The Lamas and other staff members of SRTOBS also observed this festival in a very simple and solemn manner in the Central Hall (1st floor) of the Institute by chanting prayers, offering Khadas and burning butter lamps etc. Many Buddhist devotees also attended the festival and offered butter lamps, incenses to the shrine in the Central Hall.

The Institute is well laid, which makes the rich literature available to scholars and research workers to broaden their knowledge. One really gets enchanted to see the richness of Buddhist teachings and Tibetan literature on all subjects—medicine, tantric, religion and so on.

MUNI GULAS CHANDRA

I am happy to visit Sikkim Research Institute of Tibetology and Other Buddhist Studies, Gangtok, which is established to promote study on Tibetology. As a part of the religious observance of Jains, I came over to Gangtok on foot and visited many educational institutions. The arrangements and collection of the Institute are indeed unique and not found elsewhere. Although most of the Tibetan books are on Buddhism, they are also most important to the Jains. If the Tibetan books can be translated into Hindi, English and other languages, these may be useful to the learners.

I was much overwhelmed with the behaviour of the managing authorities and the staff.

There is immense scope here for the study of Buddhism which is a legacy of Shramana heritage. This Institute can set up an unique ideal if facilities for collection and scope for study of Jain scripture, another Shramana cultural heritage of Jain tradition are provided herein. I express my heartfelt thanks to the Librarian and other staff of the Institute.

I have visited the Institute of Tibetology today the 25th May, 82 when I came to attend the Eastern Hwath Ministers Conference to be held at Gangtok on the 26th May, 82. On my way to Buddhist Monastery I happen to visit this Institute. I am so much impressed by the
different books collected and kept in this Institute. The most pleasing and interesting point to be everlasting memory is that here one can see the remains of Buddhism along with images of Lord Buddha. Under the guidance of Mr. J. K. Rechung, Dy. Director of the Institute of Tibetology, I can understand and collect ample knowledge of the backgrounds of Tibetan civilization. Thanks to the Deputy Director for his sincere service.

I hope many people from within and outside India who happen to visit the Institute will get some benefit as I am feeling today, and this Institute will serve the people for all the time to come. God will blessed.

Thank to all.
