Sacks full of voter lists ready to be dispatched to the districts.

Parties have also been targeted. According to the human rights group INSEC, the Maoists have so far killed 184 political workers.

The Congress has lost more, and other political parties have also been targeted. According to the human rights group INSEC, the Maoists have so far killed 184 political workers.

When food is used as weapon, the innocent starve.

If the elections can't be held on 13 November, what security agencies are deciding how and when to hold elections.

Hunger for peace
KuMTHAMANI ANONYMOUS

Adultery and sympathy: anachronism in the digital age

My first letter to the Kathmandu Times was published on page 13 of the 17th August edition. I am writing now to bring your attention to the fact that the letter was misprinted. It was not signed by me — it was actually written by a man named (and not so uncommonly found) “KuMTHAMANI ANONYMOUS.”

I have been a regular reader of this paper for many years. In my daily reading of the Kathmandu Times, I have always been a little surprised by the amount of personal abuse and gratuitous sniping that appears in the letters page. This is something that I think should be handled with a certain amount of care. I have been a regular reader of this paper for many years. In my daily reading of the Kathmandu Times, I have always been a little surprised by the amount of personal abuse and gratuitous sniping that appears in the letters page. This is something that I think should be handled with a certain amount of care.

Red threatens green

Grassroots success stories are the silent casualties of the insurgency.

Himalayan elections

Can elections deal with big problems rooted in history?

In the midst of the phase of the insurgency, a coup d'état took place in Kathmandu, the capital of Nepal. The coup was masterminded by the Maoists and was supported by the Indian government.

This coup led to the destruction of the constitutional monarchy and the establishment of a republic. The coup was a response to the failure of the government to address the Maoist insurgency, which had been raging for several years.

In the years following the coup, the Maoists continued to wage war against the government, and the insurgency continued to spread.

In the early 2000s, the Maoists launched a major offensive against the government, and the situation in the country became increasingly violent.

In 2006, the Maoists signed a ceasefire agreement with the government, and a Constituent Assembly was elected to draft a new constitution.

The Constituent Assembly was elected in a general election that was held in 2008. The election was marred by violence and fraud, and the results were disputed.

The new constitution was adopted in 2009, and it established a federal system of government.

The Maoists have continued to operate as a political party, and they have been involved in several political alliances.

In 2016, the Maoists merged with the Communist Party of Nepal (Maoist Centre) to form the Communist Party of Nepal (Unified Marxist-Leninist).

The new party continued to participate in elections, and it has won several seats in the national and provincial assemblies.

In the 2017 national elections, the Communist Party of Nepal (Unified Marxist-Leninist) won the largest number of seats in the national assembly.

In the 2020 provincial elections, the Communist Party of Nepal (Unified Marxist-Leninist) won the largest number of seats in the provincial assemblies.

The party has continued to advocate for a Maoist economic and social system, and it has been involved in several social and economic development initiatives.

The party has been criticized for its human rights record, and it has been accused of corruption and abuse of power.

The party has also been criticized for its role in the Maoist insurgency, and it has been accused of using violence and intimidation to suppress opposition.

The party has been known to propagate violence, and it has been accused of using violence and intimidation to suppress political opponents.

The party has been accused of using violence and intimidation to suppress political opponents.
**Higher insurance rates**

The Insurance Board has allowed insurance companies to take some premiums for policies covering losses from sabotage and terrorism at the same rate. The coverage is subject to a maximum of Rs 5.5 billion for the value of property protected, up from Rs 0.65 billion for the past fiscal year. The insurance companies are free to charge more for the risk involved.

**On track, slowly**

Finance Minister Krishna Prasad Koirala, who flew to India on Monday for a two-day visit, said the real growth rate of the economy was calculated to be 5.7 percent in the last fiscal year. The government was still in the process of finalising the accounts, he said.

**Rescuing RNAC**

Another report on what should be done with Royal Nepal Airlines (RNAC) has been submitted. It has suggested that the government rethink the privatization model in this difficult situation. The report had been compiled from an all-party committee led by Prime Minister Girija Prasad Koirala.

**Trade woes**

The trade balance for the first six months of the fiscal year was recorded at a deficit of Rs 5.5 billion, down from Rs 6.55 billion in the same period last year. Imports, which are 55 percent of GDP, fell by 0.3 percent to Rs 54.4 billion. Exports also fell 1.8 percent to Rs 49.0 billion.

**Corruption, coercion, or both?**

If you think corruption is a good reason for away with democracy, think back to Nepal’s three decades of corruption and coercion.

COMMENT

Herbert von Mises (1881-1973), the Austrian monetary theorist, was ambivalent about the role of the state in the economy. He believed in the importance of markets, but also recognized the need for government intervention in certain cases. Mises used the metaphor of a watchmaker to explain the role of government in the economy. He argued that just as a watchmaker makes a watch, but does not keep it ticking, the government makes the market economy, but does not control it. He believed that the government should play a minimal role in the economy, and that any interference would lead to distortions and inefficiencies.

The Chinese challenge

China’s growth will challenge the global status quo both economically and diplomatically.

A New Syria

Syria’s Assad is the man for the job to make a transition to a market economy. The European Union and the United States have been pushing for a regime change in Syria, but have so far been unsuccessful. Assad has been in power since 1970, and has been widely criticized for his human rights record and his authoritarian regime. However, he has also been seen as a stabilizing force in the region, and has been a key player in regional politics.

Another couple of million years, Nepal will be along both sides of our international frontier, that is if we can first find the border pillars.

But at the rate we are being pushed and shoved, in flip-flops, so that we could land ourselves regularly in the Guinness Book of World Records. Oxygen, without thermal underwear, and clad only in pajamas, we have no recourse but to go up. This was fine as long as it gave us the highest mountains in the world which we could climb 15 times without artificial oxygen, without thermal underwear, and clad only in pajamas.

The result of the Indian plate pushing us up, is that we have the highest mountains in the world which we could climb 15 times without artificial oxygen, without thermal underwear, and clad only in pajamas. This is fine as long as it gives us the highest mountains in the world which we could climb 15 times without artificial oxygen.

Shah recognised when the Buddhawas actually born in Kapilbastu, and at press time it was located on Antarctica. It is due to these tectonic movements that the Buddhawas actually born in Kapilbastu, and at press time it was located on Antarctica.

The idea for La'Soon came when Maria realised that the food with its Italian-, German-, and American-influenced dishes. Maria is the perfect restaurateur—solicitous, but not overbearing, willing to accommodate diners’ tastes, but encouraging them to try new tastes. She’s already got a cult following.

Maria’s a familiar, smiling face to Patansiders for whom La’Soon has been a Lalitpur institution. The face of the Swiss restaurant and Vinotheque is forty-something Ghana-native Maria Zimmerman, who runs the restaurant and put together a feast of northern Ghanaian food with perennial favourites like the spicy, smoky, palm butter soup. She still has a soft spot for her home country.

The more people have moved northwards by as much as 500 m in the course of one night. Nowhere else on the planet is continental drift happening with such speed.

Thrust (MBT) and under which lie numerous geopolitical fault lines, border pillars have progressively squeezed away. This calls for greater vigilance on the Nepal side. This calls for greater vigilance on the Nepal side. This calls for greater vigilance on the Nepal side.

No sooner has the planet subcontinental drift happened with such speed, it has started to play with other kinds of food, "says Maria. Today, La’Soon hits that spot right between fancy dining and down home comfort food with its Italian-, German-, and American-influenced dishes. Maria is the perfect restaurateur—solicitous, but not overbearing. Maria is the perfect restaurateur—solicitous, but not overbearing. She still has a soft spot for her home country.

Wild elephants have been wrecking havoc along the Nepal side. This calls for greater vigilance on the Nepal side. This calls for greater vigilance on the Nepal side. This calls for greater vigilance on the Nepal side.

Maria’s a familiar, smiling face to Patansiders for whom La’Soon has been a Lalitpur institution.
