Introduction

This contribution aims at presenting a condensed version of an online catalogue of 15th and 16th century Tibetan xylographs from South-Western Tibet which has been built thanks to two correlated projects, namely *Transforming Technologies and Buddhist Book Culture: The Introduction of Printing and Digital Text Reproduction in Tibetan Societies* and *Tibetan Book Evolution and Technology* (TiBET). The former was a five year project founded by the British Arts and Humanities Research Council (AHRC, 2010-2015) and undertaken under the leadership of Dr. Uradyn Bulag and Dr. Hildegard Diemberger, in collaboration with the British Library. The latter was a two year project (2013-2015) granted by a Marie Sklodowska Curie Fellowship and carried out by me under the supervision of Hildegard Diemberger. Both projects were hosted at the Mongolia and Inner Asia Studies Unit of the University of Cambridge.¹ The online catalogue contains information about prints preserved at the Cambridge University Library, the British Library (London), the Bodleian Library (Oxford), the World Museum (Liverpool), the IsIAO Library

* I wish to dedicate this paper to my Professor, Elena De Rossi Filibeck, whose manifest love for Tibetan culture and commitment to work and students made me decide to devote my life to this field of study. Since she spent many years working on the cataloguing of the Tucci Tibetan Collection, I hope she can appreciate this small contribution which aims at thanking her with all my heart for her constant help and support, and for transmitting her passion to me.

¹ I would like to thank all the people who helped us with several aspects of the projects: Libby Peachey, Burkhard Quesel, Terry Chilvers, Elena De Rossi Filibeck, Franz-Karl Ehrhard, Camillo Formigatti, Agnieszka Helman-Wazny, Filippo Lunardo, Katie Boyle, Michael Pahlke and his amazing team in Nepal, Jeff Wallman, Alessandro Boesi, Marta Sernesi, Daniel Sterling, Bruce Huett, Christopher Kaplonski, Fabio Miarelli, Paola Ricciardi, Anuradha Pallipurath and Mark Elliott. I am also particularly grateful to all institutions who collaborated with us: the British Library, the Cambridge University Library, the dPal brtsegs Research Institute in Lhasa, the Nepal Research Centre in Kathmandu, the Bodleian Library, the IsIAO Library in Rome, TBRC, the Museum of Archaeology and Anthropology in Cambridge, the World Museum of Liverpool. I wish to express my thanks to Elena De Rossi Filibeck for passing the initial idea of the TiBET project to me during the cataloguing of the Tucci Tibetan Collection of the IsIAO Library in Rome. On the research results of the above-mentioned projects, see Clemente 2016a; Clemente 2016b; Clemente 2017; Clemente (in press a); Clemente (in press b); Clemente, Diemberger, Helman-Wazny & Lunardo (forthcoming); Clemente & Lunardo 2017; Clemente & Lunardo (forthcoming); Diemberger & Clemente 2013.
Each entry included in the database contains the physical description of the xylograph and a description of its content, a transliteration of incipit and colophon, the mark up of personal and place names and dates in colophons as well as information on paper and pigment analysis, if available. An authority file for each person and place not available in BDRC (Buddhist Digital Resource Center) has also been created with information found in primary or secondary sources. Each entry includes pictures of the entire text, and if available, pictures of fibres in magnification from paper analysis as well as the map showing the location of the printing house where the book was produced. The database is currently searchable by title, personal name, place name and text number.

The condensed version of the database showcased in this article includes information on seventy-one sixteenth century printed texts, which are only a part of those described in the database. Fifteenth century xylographs are not presented in this contribution. Furthermore, due to space limitation, whenever there are more than one exemplar of a text the following list exhibits data on only one of the exemplars. Information on further available copies and/or different editions are provided in the footnotes, while a description of all the exemplars is available in the online database. Data displayed here was obtained from a study of colophons, an analysis of codicological features and an examination of biographies of masters involved in printing activities in the South-Western Tibetan areas. Texts are listed under the printing house where they were produced, and arranged in Tibetan alphabetical order.

2 The Italian government has put IsIAO under liquidation in 2011 and its library has been unaccessible until 2017, when it was moved to the Biblioteca Nazionale (Rome). The re-opening of the Library in a dedicated room of the Biblioteca Nazionale is planned for June 2018. Fortunately, we were able to photograph all Gung thang xylographs before the closedown of the institute thanks to a collaboration between IsIAO and the University of Cambridge within the AHRC project. The collaboration of the former President of IsIAO, the late Professor Gherardo Gnoli, and of the former Director of the Library, Dr. Francesco D’Arelli, was instrumental in making this feat possible.

3 Most texts preserved at the National Archives are microfilms of prints which were filmed by the Nepal German Manuscript Preservation and Conservation Projects (NGMPP-NGMCP, Centre for Manuscript Studies, University of Hamburg). The same microfilms are also kept at the State Library in Berlin.

4 Physical descriptions of the blockprints have been prepared by me in collaboration with the paper conservator, Agnieszka Helman-Wazny, and the art historian, Filippo Lunardo. They cover paper analysis and some distinctive features of prints such as design of front page and layout. The database of both projects is available at http://booksdob.socanth.cam.ac.uk:8080/exist/apps/TTBBC/index.html. The website of the AHRC project is available at http://www.ttbbc.socanth.cam.ac.uk. The website of the TiBET project is available at www.tbebtech.socanth.cam.ac.uk.

5 Authority files are documents containing information on people involved in the production of xylographs (craftsmen, donors, supervisors of printing projects, etc).

6 This data will be also integrated into the BDRC database as soon as possible.

7 For information on these printing houses and a map of the sites, see the website of the TiBET project.
order. When the place of printing of a certain xylograph is still under investigation, it is listed under “unknown printing house”. This short catalogue provides available data of each work such as shelfmark, title, number of pages, size, number of lines, colophon’s length, author/editor, printer; place and date of writing/editing, place and date of printing, and artists involved in the production. Secondary sources available on each text are also given in footnotes.

9 Brag dkar rta so (lit. ‘white rock horse tooth’) is located between the Mang yul and Gung thang areas. This small monastery, which soon after its establishment became a famous printing house, was founded by lHa btsun Rin chen rnam rgyal (1473-1557), a bka’ brgyud pa master who devoted most of his life to the production of Buddhist xylographs. Since he established his seat at Brag dkar rta so in 1525, the date of printing of works produced in this monastery, unless specified in the catalogue entries, can be fixed between 1525 and 1557. On this master and his work, see Clemente 2007; Clemente 2009; Clemente 2014; Clemente 2015; Clemente 2016a: 397-98, 406-409; Clemente 2016c; Diemberger and Clemente 2013.

According to the biographies of Chos dbang rgyal mtshan and Nam mkha’ rdo rje, the execution as prints of these five texts (cf. FGT 671/1-5) was done at ’Dzo lhas, the place where Nam mkha’ rdo rje was residing at that time. Only two colophons of these five xylographs mention the place of printing but this surprisingly is rDzong dkar. It seems therefore that the preparation of wood for blocks and their carving was done at ’Dzo lhas whereas the final stage of printing took place at rDzong dkar.

132 ‘Tsho rkyen was a hermitage where bTsun pa Chos legs and Chos dbang rgyal mtsphan used to stay. It should be located not far from Chab rom phug, in Mang yul Gung thang. See Ehrhard 2000b: XIII-XV. See also Clemente (forthcoming b).
133 According to Ehrhard 2000b: XIII-XIV, this is the first of five chapters included in the textbook (yig cha) on Mahâmudrâ written by bTsun pa Chos legs. The title of this xylograph should actually be that of the textbook, whereas the title of the first chapter should be gZhi’i skabs rnam par bzhag pa. This latter is indeed the title found in the colophon. Cf. f. 20a6-7. A facsimile copy of this xylograph is available in Ehrhard 2000b: 1-20. See also Clemente (in press b); Clemente (in press c).
134 The date and place of printing are mentioned in the biography of bTsun pa Chos legs (cf. ff. 109b6-110a1). See also Ehrhard 2000a: 70, n. 4; Ehrhard 2000b: XIV.
135 This is also reproduced in Ehrhard 2000b: 21-96. It is the second chapter of the textbook (yig cha) on Mahâmudrâ entitled Grol lam gsal bar byed pa snying gtam rin po che’i phreng ba (see Ehrhard 2000b: XIV. Cf. colophon AT61/21_5). \(^{141}\) Chab rom phug was a hermitage located near the village of Rud, south of Kun gsal sGang po che and West of rDzong dkar. Its exact location is still unknown. The site was established by bTsun pa Chos legs as one of his retreat places, therefore the works printed there seem to be associated with the Bo dong pa tradition. Chos dbang rgyal mtshan also moved there in 1511. It seems that the production of prints at Chab rom phug is connected with these masters and that it stopped after their death; however, this question is still under investigation. This xylograph was erroneously identified as a Brag dkar rta so print in Clemente 2007: 125. According to the biography of Byams pa phun tshogs, he spent 5 months with rGod tshang ras chen at Ras chung phug, where he received a great number of reading authorizations, including the one of the biography of Ras chung pa, which was based on a xylographic edition of the text (see Ehrhard 2012: 158). Then, in 1559 he decided to print the biography of Ras chung pa written by rGod tshang ras chen, also thanks to a dream of his teacher and author of this work. He began to work in the fourth Hor month of the sheep-year, when he was 57, and finished on the fifteenth day of the fifth Hor month of the same year (see Ehrhard 2012: 162). This work was first printed in 1531 at Ras chung phug (see Roberts 2007: 40-47).

182 This xylograph belongs to a private collection. It was photographed by Hildegard Diemberger and Bruce Huett in Kathmandu and is available in the online database.  
183 According to its stylistic features, this xylograph might be also printed at Chab rom phug.  
184 The title is taken from the incipit. According to its stylistic features, this xylograph might be also printed at Chab rom phug.  
185 Neither the printing house nor the printer’s name are mentioned in the colophon, and the stylistic features of the xylograph do not help us in identifying its provenance. Notwithstanding this, I would posit that lHa btsun was the printer of this xylograph, as he used to print his own works produced at Brag dkar rta so. It seems therefore logical that this text, penned in 1522, was one of his earliest experiments with xylographic printing, and that it was printed at Brag dkar rta so soon after 1525. On this work, see also Clemente 2015: 192; Schaeffer 2011: 474.
