Prólogo

Libro de cuentos Mangghuer está escrito en lengua mangghuer que, en términos generales, sigue el sistema *pinyin* chino. Este sistema es fácilmente comprendido por los estudiantes de escuela primaria y secundaria.

La selección de lecturas de este libro fueron recogidas por Wang Xianzhen y Zhu Yongzhong en 1996 en varios pueblos mangghuer en el condado de Minhe utilizando una grabadora. Posteriormente, los relatos fueron transcritos utilizando un procesador de texto.

Éste es el primer libro escrito en mangghuer accesible a los estudiantes.

Agradecemos el apoyo de The Bridge Fund para la publicación de este libro. (*Manuel Lopez*)

Esipuhe

Mangghuer Folktale Reader [Mangghuerin kansansatulukemisto] on kirjoitettu mangghuerin kirjakiielellä, joka noudattaa pääpiirteissään kiinan kielen ns. *pinyin*-romanisaation periaatteita. Tämä oikeinkirjoitusjärjestelmää on myös mangghuerilaisten koululaisten helposti hallittavissa.

Tämän kirjan valikoiman ovat keränneet Wang Xianzhen ja Zhu Yongzhong vuonna 1996 Kiinan

Qinghain maakunnan Minhen läänissä sijaitsevista mangghuerien kylistä. Kenttätyö tehtiin nauhuria käyttäen. Tekstit litteroitiin myöhemmin kirjakielen mukaiseen asuun ja toimitettiin tietokoneella.

Tämä kirja on ensimmäinen mangghuerinkielinen kirja, ja se on tarkoitettu mangghuerilaisille koululaisille ja opiskelijoille.

Kiitämme Bridgen rahastoa (The Bridge Fund) sen tälle hankkeelle osoittamasta tuesta. (*Juha Janhunen*)
